Observation details

5. Please describe the grounds of your observation (planning reasons and arguments). You can type or write them in the space below or you can attach them separately.

Since August 2022 our lives have totally changed since the aeroplanes changed course with the introduction of the new runway. We were immediately bombarded by loud noisy low flying aeroplanes. Last summer it was impossible to sit out and enjoy a barbecue or even stand and have a conversation. The noise has seriously affected my wife's health. Her blood pressure has got a lot worse and her G.P. has increased the strength of her medication. The noise of the planes disturbs our sleep. Most mornings it is continuous from 6am at 2 minute intervals. I recently spent 19,000 euro on installing double glazed windows but the noise is so loud it makes no difference. My house has been devalued by at least 150 thousand

also. I can no longer enjoy the company of my grand children in the garden as they are scared by the noise. I have continually complained about the noise and the Dublin Airport complaints team but have never received any response. It is only a means of passing off people. I am 43 years living in my residence and until August 22 lived in ideal conditions. It is unbelievable that the Airport authorities ~~to~~ subject residents to such torture when there is such a simple solution. If the authorities would conform with planning permission there would be no problem. It is a disgrace that Fingal County Council permit such a clear breach of their planning laws. I hope that D.A.A. will engage with local groups and come to an amicable solution. Yours Faithfully John Doyle
