Observation details

5. Please describe the grounds of your observation (planning reasons and arguments). You can type or write them in the space below or you can attach them separately.

My major areas of observation and concerns are:

Our enjoyment of our home and garden has been significantly affected since the opening of the North Runway. Everyone expected something different in terms of flightpaths based on the 2007 planning permission and what has happened is completely different. The current operation is causing distress and disturbance for tens of thousands of people not to mention the negative health effects and illness which can be attributed to excessive aircraft noise.

The prospect of granting further changes to increase the day hours and night flights is very worrying when there is a major noise issue already in place.

So-called "permitted" noise zones in this submission do not match the Environmental Impact Statement for the only granted permission.

Acceptance of the relevant action by ABP and thus retention of the flightpaths would set a precedent that ABP conditions should be ignored if inconvenient.

The DAA are breaching their current planning permission and flightpaths as per below:

- Daa have breached the passenger cap in 2019 and will most likely do so again this year.
- Daa are consistently breaching the 65 movement cap per night.
- Daa are not using flightpaths they used in their 2007 planning permission.

An oral hearing is absolutely necessary given the gravity of the situation.

5. Please describe the grounds of your observation (planning reasons and arguments). You can type or write them in the space below or you can attach them separately.
