5. Please describe the grounds of your observation (planning reasons and arguments). You can type or write them in the space below or you can attach them separately.

average noise levels should never be allowed as a measuring device as they could allow very noisy movements of vehicles or planes but leave long gap to next movement which would put these movements within limits - no good if you have been awakened by the noise.

They have ignored the 65 Flight cap since the new runway opened, which at all their information meetings they said would be the limit.

They do not use the flight paths that in the planning permission. We informed them that we use our garden as much as possible. The noise is very loud even when landing and bangs after its pass (I think it is a sonic boom from wing tips).

Greenhouse emissions jumped significantly as a result of this new flight path. as a penalty the second Runway 28R should be closed and dismantled. They should have
