Observation details

5. Please describe the grounds of your observation (planning reasons and arguments). You can type or write them in the space below or you can attach them separately.

Dear Sir,
I have been living in Portmanock for the past 50 yrs.

The growth of traffic through Dublin airport is causing a lot of sleeping and noise issues especially these last few years.

The complete disregard the DAA for planning regulations is unbelievable the lack of transparency in how they manage their reporting and compliance is masterful.

I believe that your department is hampered by the attitude of the DAA towards you and all the people of Portmanock. I have written about my concerns on the role of Fingal in this and how could they be unbraced in challenging the breaking of planning rules. Furthermore I heard Mr Leo Varadkar stating that the limits of 32.9m. should be increased and now there is a planning submission for new terminals and to be able to handle 50m passengers.

Please take a good look at what is going on at the airport.

5. Please describe the grounds of your observation (planning reasons and arguments). You can type or write them in the space below or you can attach them separately.

Section 5 continued.

Please review the night time flying
It has been ignored and now they
want flexible flying and "flexible"
noise management

I hear the planes coming in at
one - 2 - and 3 at night I hear
take off at 5.00 AM in the morning
They do not adhere to flight paths
in or out of airport and take
low entry and short turns over
Portmankirk.

I object strongly to extension of
day hours and don't forget it's like
a constant rumble on the take off
in the early hours.

- continued use of the current unapproved flight paths which differ from those approved in the only planning permission granted in 2007
- the night time flights actually wake me up and it's not the 'one-off' it's having a negative effect on my health, waking up during off or taken again.

Wishing you every success
Paul Gordon
