Coolquoy, The Ward Co.Dublin

13/12/2023

An Bord Pleanala, 64 Marlborough Street, Rotunda, Dublin 1.

An Bord Pleanala Ref: PL06F.314485

Planning Authority Case: F20A/0668

Dublin Airport, Co.Dublin.

Dear Secretary at An Bord Pleanala,

Please REFUSE PERMISSION to DAA Relevant Action ref: PL06F.314485. On and since 24th August 2022, my peaceful home and garden of 40 years in Coolquoy, The Ward, has been drastically disturbed. Without warning or without consultation.

In 2007, I attended a public meeting near at Dublin Airport hosted by the DAA experts leading the North runway project and I asked one question to a member of their team called Siobhan... Will my area Coolquoy and Kilcoskan be affected by this runway flight path? I was told by Siobhan -- unequivocally No!

DAA lied to me in 2007 and they are still lying to me now in 2023!

Our family homes are located in Noise Zone C in the rural village of Coolquoy and we are not supposed to be experiencing the level of aircraft noise that is coming from this north runway. It is unbearable. The flights were never to go across our community yet now we find ourselves in a situation of total turmoil with the flight paths going over our homes every two minutes. No planning permission was ever granted to DAA to fly over Coolquoy and Kilcoskan area.

A number of years ago I was diagnosed with tinnitus and vertigo. I have been able to maintain it and keep it under control until this runway opened. I have found that the ringing in my ear is now amplified even more when aircrafts fly over my home and my garden. The ringing in my ear can be so tremendous and unbearable that I need to stop talking, sit down and at times lie down.

My home is now noisier than ever as I have to turn the radio sound up, turn the tv sound up, I feel like I am shouting when people call me on the phone as the airplanes are flying overhead and it's so loud that I need to talk louder so people can hear me. This is a terrible way to live and is now putting me and my wife in jeopardy of developing further long-term health issues.

I am a member of Corrstown Golf Club for over 25 years. It has been a great social space for me to exercise, to keep fit and interact with other retired golfers, enjoying great friendships along the way.

Unfortunately, the game of golf has changed in Corrstown Golf Club since this north runway opened. It is too noisy and loud for me and my retired friends to go out and enjoy a round of golf. The DAA has taken our physical healthy wellbeing away from us in a blink of an eye by flying the aircrafts over the golf course non-stop. We are devastated.

I am so concerned for my children and grandchildren living in the area as I encouraged my children to buy and build homes in this community over the last few years. We all did our research and looked at maps and plans for the new runway, and knew when it was to open, it would not have flight paths over Coolquoy and Kilcoskan. Now we are faced with flights flying over us every two minutes.

My grandchildren attend the local primary school, Kilcoskan National School, as did my own kids and the beautiful peaceful rural school is now destroyed with noise and pollution from these aircrafts. No amount of insulation will help the kids in the school yard.

I have another grandchild in a local preschool called TippyToes, and again I am deeply concerned about the aircraft noise there.

These kids never get a break from the noise. They go to school, its aircraft noise, they go home its aircraft noise, play in the garden its aircraft noise, play in their bedroom its aircraft noise, its just constant aircraft noise in their lives. This is going to have major long term health implications on my grandchildren and all other families and children living in the area.

I recently got the noise levels professionally tested in my back garden in April 2023, and results came back stating 63db – 65db average with some planes flying over my home as loud as 85db.... How is this allowed to happen? Why was I never given any warning? Is the DAA now going to turn our Noise Zone C rural village community into Noise Zone A without warning or consultation with anybody? Is the DAA now the new planning authority in Ireland and everyone needs to answer to them?! This needs to stop.

The revised SIDS (23rd Feb 2023) has made no improvement to our area. Actually, it has made it worse! Flights non-stop!

Please see photos attached for your attention:

1. Aircrafts flying over my once peaceful home in Coolquoy RV
2. Aircrafts flying over Corrstown Golf Club where I go for my health and fitness for the last 25 years
3. Photo of the professional noise monitor in my back garden

Please REFUSE PERMISSION on this relevant action – DAA must follow 2007 planning permission. Give us back our lives. Let us sleep!

Regards,

Thomas Conaty
