Observation details

5. Please describe the grounds of your observation (planning reasons and arguments). You can type or write them in the space below or you can attach them separately.

The Dublin Airport Authority should follow the flightpaths it got planning permission for - from my observation there are many flight paths being used, is this legal?

It is scientifically proven* that we need eight hours sleep and the two hours before midnight are particularly important. The DAA are breaching the Sixty Five movement cap per night - ideally there should be NO TAKE OFFS between 11pm and 6 a.m. as these create ferocious NOISE. It is healthier to have a window open in the bedroom but I can no longer sleep with a window open due to the noise from flights.

Increasing aircraft activity will also increase emissions which we need to reduce to prevent climate change, for the generations to come.

Particularly NIGHT TIME FLIGHTS need to be reduced out of respect for the thousands of residents affected, or banned altogether.

Equal importance must be given to the needs of the Airport AND the needs of all the surrounding RESIDENTS: the fundamental need to 8 hours sleep. An Oral Hearing is absolutely necessary given the gravity of the situation.
