Observation details

5. Please describe the grounds of your observation (planning reasons and arguments). You can type or write them in the space below or you can attach them separately.

- The DAA have breached the passenger cap in 2009
- DAA are consistently breaching the 65 movement cap per night.
- DAA are not using the flightpaths they used in their 2007 planning permission.
- They are breaking the law & getting away with it to the detriment of the local community.
- My enjoyment of my home & garden has been severely impacted since the opening of the North Runway.
- I'm concerned about the negative health effects & illnesses which can be attributed to excessive aircraft noise. It flies in the face of WHO & all academic research on harm done by air traffic noise.
- Straight out flightpaths will largely improve the noise issue.
- The effects on the environment are monumental & Ireland is one of the worst countries in the world in terms of GHG emissions. Increasing aircraft activity in the midst of climate crisis seems counterintuitive.
- An oral hearing is absolutely necessary given the gravity of the situation.
