Observation details

5. Please describe the grounds of your observation (planning reasons and arguments). You can type or write them in the space below or you can attach them separately.

The noise from the aircraft flying over or near my house is extreme and it is on a constant basis. I, and my wife, are constantly wakened during the night time from aircraft noise. This is causing us stress, constant broken sleep, and we fear for the medium and long term effects on our health that the broken sleep is having on us. The night time flights are seriously affecting the quality of our lives, and our health. During the day time, the constant extremely loud aircraft noise is also intolerable. I beg you, the officers in An Bord Pleanála not to allow Dublin Airport Authority to expand further to the 40 million passengers, and not to allow them to extend the night time flights from 11pm to midnight and from 7am to 6pm. I also beg you, the officers in in An bord Pleanála, to get Dublin Airport Authority to make proper assessments on the noise they are causing to people, as well as the air pollution they are causing, as they seem to be only interested in fudging the issues, eg, they keep saying that aircraft have got quieter over the last 30 years – on first glance this is true – however – they conveniently omit that (a) the frequency of the aircraft is much more intense than 30 years ago, and (b) aircraft are much bigger than 30 years ago – and therefore require more power to get into the air, and more power means more noise. A representative eg of the frequency of flights near my house (K67DX30) over a short period of time is as follows: Sunday 12th Nov, 2023, 5:12pm; 5:14pm; 5:16PM; 5:18PM; 5:23PM. This is a typical eg of the intense frequency of the noise we are subjected to. It is grossly unfair.
