Dear Secretary,

Please REFUSE PERMISSION to DAA Relevant Action.

The current fight path of a large majority of flights from the northern runway are directly over Greenogue. Many don't even make 3000ft with decibel recodings in high 60's and even over 70db making our lives intolerable. Having discussed the situation with numerous pilots, all have stated it is not a safety issue but is purely for the convenience of DAA. There is no necessity for this narrow flight path corridor as aircraft soon deviate to their intended route. The consistent noise is has led to widespread upset in the surroundings. There is NO planning permission for this route and despite consistent flouting of the planning regulations nothing appears to have been done to prosecute the offender.

Having read the DAA's submission it is clear they have used the current flight paths for their "permitted" drawings instead of the correct and original 2007 permitted paths. This could effectively, unintentionally grant retention to current illegal flight paths. Please consider our community.

An oral hearing is absolutely necessary, given the seriousness of the situation.

Yours faithfully,

John Stack
