## Observation details

5. Please describe the grounds of your observation (planning reasons and arguments). You can type or write them in the space below or you can attach them separately.

I live in Ashbourne and since February 2023 I am now one of the 30,000 people living under the revised flight paths imposed by DAA in breach of their original planning permission granted in 2007. Since this time there has been an intolerable increase in aircraft noise during the day and at night with low flying flights departing ever few minutes and through the night. This has resulted in excessive aircraft noise and our enjoyment of our home and garden has been severely affected since these changes. During the day it is impossible to enjoy sitting in the garden and even when inside all doors and windows have to remain closed which limits but does not alleviate the noise exposure. At night time the noise is particularly evident resulting in interrupted sleep throughout the night. In the summer months when temperatures are high windows have to be kept closed at all times. The prospect of maintaining the existing flight paths in breach of planning permission and granting further changes to increase day and night time capacity is unbelievable given the major noise issues already in place. It is particularly distressing as the flights paths now been used were never granted permission.
