Observation details

5. Please describe the grounds of your observation (planning reasons and arguments). You can type or write them in the space below or you can attach them separately.

For over twenty years my family and I have lived without any issues in relation to aircraft noise pollution.

That was until the go ahead was given for the new North Runway located at Dublin Airport.

Ever since then my family and I have been mentally and physically impacted by the bombardment of constant low flying aircrafts using the North Runway.

We can no longer have simple conversations inside our family dwelling without waiting for an aircraft to pass by, due to the immense engine noises.

This includes trying to talk with people on the phone in relation to both work and social calls.

We have calculated an average of 50 seconds per aircraft flyover during the days the DAA has permitted extra flights.

This constant low aircraft flyover has created my family and I to endure constant stress on our eyes with the flickering of light caused by the low flying aircrafts blocking out natural sunlight as they pass. The

sudden light bursts strain our eyes and gives us a lack of balance as our eyes try to readjust.

During the summer months when we are meant to see sunny skies, we instead are unable to open the windows to let fresh air in due to the noise. There is more strain put on our eyes as aircrafts such as Delta and United Emirates fly at an even lower altitude so much the underbelly of the plane is clearly visible to the naked eye.

Unfortunately, this mental and physical strain is carried into the night. As my family and I are struggling to sleep due to both the continuous plane noises and lights shining onto surrounding roof tops, which in turn is shining bright lights upon us at a time when we need to sleep for our physical and well being.

The DAA is blatantly ignoring all planning rules that any other individual or business would have to follow.

These planning rules have been put in place to prevent letters like this being written.

My family and I have a right to be able to move both happily and freely within and around our dwelling without having both our mental and physical health under strain due to the poor management of the DAA in relation to the new North Runway in Dublin Airport.
