To ABP,

I received an invitation to submit observations I might have about Bus Connects QBCs from Rathfarnham to the City Centre and Templeogue to the City Centre. The deadline is March 28th.

In order to do so, I wrote to Dublin City Council and the National Transport Authority to seek clarification around where the A Routes will go after College Green is pedestrianised. Dublin City Council has published plans to pedestrianise large sections of Dame Street in 2025.

To the best of my knowledge, the NTA has not indicated to ABP it's preferred options if Rathfarnham to City Centre - Airport route has to be diverted around College Green. That's unacceptable at this stage of the planning process.

Either way, the preferred options of the NTA and Dublin City Council are not the same. Please see screenshots.

Yours sincerely

Conor Ryan

Conor,

The A spine will replace Route 16.

The A spine is scheduled to commence operations in March 2025. However, this schedule is subject to change depending on several factors, including driver availability. The A spine will operate via St Stephen's Green East in both directions.

Regards
Niall

Dear Conor,

Thank you for your email.

In the event of the closure of the College Green end of Dame Street to buses, it is currently intended that services using it could instead be routed via either Cuffe Street and St Stephens Green or via South Great George's Street, the western part of Dame Street and Winetavern Street.

Can I check with you regarding which routes 10 and 12 you are referring to please.

The numbers 10 and 12 were previously used in consultation material for the services now called 86 and 88. They will run from the Sandyford area to Mountjoy Square via St Stephens Green, Tara Street and Custom House and do not serve College Green.

New route 10 will replace current route 130 from Clontarf to Abbey Street and does not serve College Green. There is no route 12.

Yours Sincerely

Edward

Dear Conor,

Thank you for following up with me on this.

I checked through our email log and note the initial response I had drafted to your query had not been delivered. My apologies for this I am not sure why this error occurred. I have since resent the information which I hope is with you by now.

Yours Sincerely,
Edward
