Case reference ABP-316272-23 Templeogue/Rathfarnham to City Centre

This is a response by residents of Greenlea Road, signatory to a submission made on this case to your letter of 23 February 2024. We were signatories to that submission.

We reject the assertion by NTA in its Response Document that no material traffic will be diverted into our area. We note in this regard the statement in submission 268 by an expert, Professor Austin Smyth at page 80 "It is my opinion that there is a **significant risk** that a **substantial** volume of traffic will divert from the corridorat the Templeogue Road, Fortfield Road junction". We believe that this evidence is correct and that the weak case put by NTA on the basis of a few signs(at page 68 of its response) is not.

We note on page 72 that turn bans into local roads are described as "an inconvenience for those seeking to access business or residential premises on Lavarna Grove and Greenlea Road" and the map on page 72 showing a very long detour (via Templeville Road, Wainsfort Road and a right turn into Fortfield Road) for people to access their houses. This map was not available in the planning application and seems to be material new information. It is our position that this is an intolerable imposition on residents which may affect their journey every day and is not a mere inconvenience or a "suitable alternative route" as asserted by NTA.
