**Re: Proposed Wind Farm at Coor West, Shanavogh, Co. Clare
Request for Further Information**

Dear Ms. Murphy,

We refer to your correspondence dated 13th February 2013 in relation to the above, in which you are seeking further information and clarification on a number of matters related to the appeal. We have been engaged to prepare a full response to all the matters raised in your request.

Your request is seeking revisions to the layout of the proposed wind farm, including changes to the turbine and borrow pit locations and alterations to the internal road layout (Items (ii) (a) & (iv) of your request refer). We note that the required revisions are likely to result in development occurring outside the original application area, as defined by the application red line boundary. In this instance, the existing red line boundary is such that it does not provide adequate flexibility for the required layout changes. However, the ownership boundary, as defined by the application blue line boundary, does include significant additional lands and will afford greater flexibility in responding to the Board's request.

In view of the above, we would ask you to confirm that the Board is satisfied, in this case, that the application red line boundary may be altered to accommodate the required layout changes. As this matter is fundamental to addressing your further information request, we would ask the Board to confirm its position as a matter of urgency.

We look forward to hearing from you at early course.

Yours sincerely,

Mark Whittaker B.Sc. (Hons) TP, MIPI
Senior Planner
McCarthy Keville O'Sullivan Ltd

Any significant further information submitted to the Board in response to the statutory notice issued on 13/02/13, and which might include changes such as those proposed in your letter of 16/04/13, will be reviewed by the Board for any requirement to re-advertise public notices.

F. O'Regan 22/04/13
