Re: Arran Windfarm Ltd. Construct electricity substation compound, to replace
substation already granted permission PL04.219620(05/5907) and
extended under 11/6605. Barnadivane, Kneevies, Terelton, Co. Cork.

Date: 5th May 2021

The Board requested for a Section 132 Notice to be issued to applicant requesting further information. Section 132 Notice was issued to applicant Barna Wind Energy on 24th February 2021 with a response deadline of 20th April 2021.

A response was received from applicant's agent Fehily Timoney Consultants on 20th April 2021 by email. Within this response, the applicant has requested for an extension of time to submit a robust response to the Board. A request for an extension of time until **December 2022** has been requested. There is no provision in the Act to allow an extension of time for a Section 132 Notice although I recommend we re-issue a new Section 132 Notice allowing the requested time frame.

Forwarded for consideration.
