The proposed bridge and other works at Ballyhea Village are unsuitable for our village and make the village unworkable from the point of view of getting from one side of the village to the other. These works make a negative impact on the landscape and the environment.

In 2010 we made our views known to CIE and Cork County Council about this bridge. They included noise levels, loss of green space, bridge situated too close to our houses and the school, and devaluation of the value of our houses. All of those reasons were accepted as reasonable by Cork County Council and are still valid.

In 2010 the bridge did not go ahead because Cork County Council took into account our concerns and did not allow the application. Cork County Council advised CIE to draw up an alternative to the proposed bridge.

The proposal now submitted for Ballycoskery to An Bord Pleanála is basically the same plan drawn up in 2010 without taking any notice of Cork County Council's decision or our concerns. By going to An Bord Pleanála CIE thinks that it can get around the decision of Cork County Council to continue with its proposed bridge.

We ask An Bord Pleanála to uphold the decision already made by Cork County Council in 2011 on building a bridge at Ballyhea Village.

We ask an Bord Pleanala to reject the proposal now made by CIE.

We ask an Bord Pleanala to encourage CIE to reexamine the proposal to build a tunnel under the railway line at Ballyhea Village as this would have the support of most people in the village and would be a less of an intrusion.

We enclose a cheque to 50 euro. 121746.

Please acknowledge receipt.
