

Bold font is where the information in the reports differs from that lodged

**Fingal County Council**

Planning was lodged with ABP on 20<sup>th</sup> June 2018 and received by FCC on 20<sup>th</sup> June 2018

FCC had a tight timeframe by the Board to submit CEO report. (email attached)

FCC requested extra time by email to ABP

This was granted to 17<sup>th</sup> September 2018.

(the extended public consultation period for omitted documents commenced on the 17<sup>th</sup> September)

The CEO report and minutes of the council meeting with councillors is attached dated 10<sup>th</sup> September 2018

It makes reference to RBSF storing biosolids generated at the proposed Clonshaugh WWTP and Ringsend WWTP on Page 4 Para - A proposed regional biosolids facility. (our query 3.6PE)

**1.8m diameter outfall pipe page 5**

the outfall will proceed easterly for a distance of 5km (should be 5.9km plus 100m for multiple dispersal units) beneath Portmarnock Strand page 5

Section B Report to the Planning Auth

Page 11 reference to the Board denying extra time for FCC and Councillors extra consultation time to consider omitted documents

Page 61 Surface Waters - Sluice River mentioned (orbital sewer not near this river – Error?)

Page 62 reference to culvert of Mayne River and Inland Fisheries. (IF were not consulted regarding the culvert size increase at Mayne River as hinge to planning submitted at oral hearing)

Page 67 8 EIAR – Competent Experts - No expertise available to FCC to undertake expert analysis of the chapters with regard to Marine Biodiversity and Marine Ornithology. ABP is the competent auth.

Page 70 - Chapter 9 FCC do not have sufficient expertise etc. Concerns are raised over omitted documents (as they did not have time to consider them)

Page 71 - Chapter 10 FCC do not have sufficient expertise etc

Page 76 - Chapter 22 Raises the issue of storage on site in case of breach

Page 79 - Sluice River mentioned again

Page 80 - Interface options are located in the nearshore waters

Page 97 - Appendix 1 of the report contains departmental reports

(some of the departmental reports are listed separately on the FCC website as well as in the CEO report. John Dalys report on the website differs to the one in the CEO report))

Transportation Section - Received in Transport section on 27/08/2018.

Report not dated or signed.

Error in the numbering. The report on the FCC website is also not signed or dated but the numbering of points is corrected.

Conservation Officer – Helena Bergin

Dated 03/08/2018

Planners Note (from the minutes) Reference to the SHC and utility installation (attached)

**The three drawings pages 123, 124 and 125 are from the pre planning stage and reference other sewer connections that are not in the GDDP application.**

**Dublin City Council**

CEO report and Meeting dated 3/09/2018

Dublin City Council ref Part X/0021

Report No. 212/2018

S37E95) - submit Chief Executive's Report to members

Mentions project will be carried out in single phase in the form of 3 construction contracts

Sludge Hub Centre3 - (not sure if this 3 is just a typo)

**1.8m diameter outfall pipeline**

Makes reference to

Clongriffin Belmayne LAP 2012 – 2018

North Fringe LAP

Branch sewers to the NFS are Malahide Road and Grange Road

Environmental and Transportation report of 02/08/2018 - not signed or dated

Roads and Traffic Planning Divisional Report Not signed or dated

**No mention of omitted documents**

Attached letter with Councillors comments and addendum

Was received in ABP on 7 September 2018

**Meath County Council**

Planning Department 16/08/2018

GSDSDS identified increases in population and industry in Dublin , Kildare and Meath

Project Description

**23H site**

**No mention of Sludge Hub Centre**

**2 Pumpings stations**

at operation over 50% of wastewater treated will come from Fingal incl from part of the

North Fringe area ( Dublin Airport, Meakstown, **Grange/Baldoyle**) as well as from

Blanchardstown catchment. The remainder will come from the northern fringes of Dublin

City and south east Meath – intercepting sewers that normally go to Ringsend.

Mentions Irish Water iInvestment Plan 2017 - 2

and the Meath County Development Plan 2013 - 2019

**No mention of omitted documents**

Signed by Pat Gallagher Senior Planner

Was received in ABP on 17<sup>th</sup> August 2018
