**Subject: Greater Dublin Drainage Project consisting of a new wastewater treatment plant, sludge hub centre, orbital sewer, outfall pipeline and regional biosolids storage facility.
Townlands of Clonsaugh, Dubber and Newtown, County Fingal and Dublin City**

Dear Ms Reilly,

We acknowledge receipt of your letter dated 23 October 2024 and note that the Board will revert in due course with regard to the matter.

The delivery of the Greater Dublin Drainage Project is a key strategic investment priority under the National Planning Framework (Project Ireland 2040) and the National Development Plan 2021-2030. GDD is a vital, once-in-a-generation project to ensure the wastewater generated every day in our homes, schools and workplaces will continue to be treated safely in compliance with the EU and national wastewater treatment regulations. As a result we would very much appreciate clarification of the next steps in the decision-making process and estimated timelines so that we may progress procurement insofar as is possible and more accurately estimate the delivery timeline for a project that is urgently needed to safeguard growth, employment, housing and the environment.

Given the strategic critical nature of this project we would very much appreciate if you could provide clarity in relation to decision making timelines and next steps, particularly in respect of any further Oral Hearing. We would ask that should the Board deem it necessary to hold a further Oral Hearing on this matter, that we be given a minimum of 6 weeks' notice for preparation for same. Additionally, we request that the Board please clarify the requirements of the Oral Hearing when giving said notice.

Yours sincerely,

Jillian Bolton (Director of Operations)
