Re: Greater Dublin Drainage Project consisting of a new wastewater treatment plant, sludge hub centre, orbital sewer, outfall pipeline and regional biosolids storage facility
Townlands of Clonshagh, Dubber and Newtown, County Fingal and Dublin City

Dear Sir,

An Bord Pleanála has received your recent submission in relation to the above mentioned proposed development and will take it into consideration in its determination of the matter. A receipt for the fee lodged is enclosed.

The Board will revert to you in due course with regard to the matter.

Please be advised that copies of all submissions / observations received in relation to the application will be made available for public inspection at the offices of Dublin City Council and Fingal County Council and at the offices of An Bord Pleanála when they have been processed by the Board.

More detailed information in relation to strategic infrastructure development can be viewed on the Board's website: www.pleanala.ie.

If you have any queries in the meantime, please contact the undersigned officer of the Board. Please quote the above mentioned An Bord Pleanála reference number in any correspondence or telephone contact with the Board.

Yours faithfully,

Kieran Somers
Executive Officer

Re: Greater Dublin Drainage Project consisting of a new wastewater treatment plant, sludge hub centre, orbital sewer, outfall pipeline and regional biosolids storage facility. Townlands of Clonsaugh, Dubber and Newtown, County Fingal and Dublin City.

Dear Secretary,

The committee and members of the Howth Sea Angling Club strongly object to the proposed Wastewater Treatment Plant at Clonsaugh and pipeline from Blanchardstown to Ireland's Eye, on the following grounds.

Environmental: We are concerned at the effects of such a large volume of so called 'treated' water intended to be pumped into sea water and the chemicals it may contain, the proposed pipeline outflow enters the sea at an area just off Ireland's Eye. Even with a guarantee of tertiary treatment, if operational procedures were to fail, the discharge of raw sewage to the sea can only result in an environmental disaster. The effects on the coastline, flora and fauna and designated shellfish waters, in what should be a protected area, would prove to be catastrophic.

I enclose the fee of €50.00 with this submission.

Yours sincerely,

Robert Byrne.

Hon. Sec. Howth SAC
