

I don't want a sewage plant in North Dublin or any part of Dublin because

(F)
(49)

firstly the smell is in a PUBLIC Park where people are dogs and children are. It is very close to schools and house so I ~~suggest~~ suggest the government to put it in a place where its not close to ~~school~~ schools and houses.

Secondly in the future people will start moving out of Dublin because of the smell and people are breathing and smelling each day is POO from the SEWAGE PLANT in DUBLIN

We Do not want the
Sewageplant because.

If we get the sewageplant, we may lose some of the
population in Ireland and with disturb lots of people.
If people from other places come visit they may not
like their stay because of the horrible smell.

Please keep Ireland clean and tidy with no one
The smell of the sewageplant is horrible, toxic and

concerning for.

Live Close to the Purposed Sewage Plant - I think

in the summer there will be a horrible smell

which will be not nice.

The sewage plant is too big for this area there could be
many plants in different areas. Then the smell will not be
so bad.

there will be too many trucks driving around the area.

25/2/14 Sewage Plant

- 1 I don't agree because of the smell it will leave.
- 2 When people are going on holiday they just see poo
- 3 When people are walking their Dogs they will have a horrible smell
- 4 When they are going to the Beach they horrible smell.
- 5 When people go to the park instead of smelling daisy's, it will smell horrible
- 6 If people do what does your area smell like it smells horrible.
- 7 Everyone will hate the smell of the sewage plant

So that is why I disagree to the sewage plant going anywhere in this area and anywhere in Dublin or our county it is unfair

Thank you

Lacey Gibbons.

1. Ava Granger, do not agree on this taking part as it will affect people going to the park and will be very smelly.

It will affect the air in our living area, and it could affect our water

No the Sewage Plant

I don't want

the Sewage plant to be built because

1. It will smell

2. There could be gases that will

damage our lungs.

3. The waste will pollute the sea in portmarnock.

Sewage Plant

I think the sewage plant should not be built because the smell would be horrible and children wouldn't go outside as much and children wouldn't get as much exercise. Any other reasons are it would ~~have~~ ^{have} pollution which is bad for the earth. And people could not grow plants go to the beach go to the park walk a dog and all other reasons. People would not like it there like high class but middle class have to. As well over this people would just buy a handful of stuff like an apple or a piece of fruit. It's probably everybody in Dublin would leave. I probably would miss the smell ~~going~~ outside. When I first heard this I thought it would be good but when heard more - thought NO. But when children have to go to school, would refuse more often about the smell. It would ~~KFL~~ ^{KFL} ~~foxes, frogs,~~ cats, dog, wildlife, birds.

To Whome it may Concern, I am writing
this letter to inform you of my objection
to the proposed installation of the waste
incineration Plant in the Clonsilla area
that may be built. I do not like it
being built in my area on such a
large scale and am worried that it will
have an impact on the Price of my
house, driving down the value. If such
a Plant has to be built it should be
done so on a smaller scale, and one
area should not have to take all the
waste from such a large portion of
the Population. I hope this Plant is
not built as I do not want to smell
this waste if there is a failure to
100% Control the smell and waste being
treated.

I Kyle O'Reilly disagree on the Sewage Plant for these
reasons the smell would be revolting for our school yards

Dear Government,

I disagree on having this ~~the~~ sink plant in our area because it will affect all of the fresh air that we have and our water supply. Not only that, but now we want to be thinking about all of the things going into that plant after people going to the toilet. God has given us fresh air for us to breathe in and no one wants that to be ruined.

Venera/Ch

Madison Ward.

Dear Government

We Have heard that the sewage plant is going to be built on the back roads and will effect our local area and schools it could cause damage to our health and safety. It will effect our water supplies and is putting peoples lives at risk. And will cause the government more money because people will have to be treated in hospital over the damage the sewage plant will cause. Its not healthy to breath sewage in and can be dangerous. Why couldn't they put it in a rural area.
