Re: Greater Dublin Drainage Project consisting of a new wastewater treatment plant, sludge hub centre, orbital sewer, outfall pipeline and regional biosolids storage facility
Townlands of Clonshagh, Dubber and Newtown, County Fingal and Dublin City

Dear Sir

An Bord Pleanála has received your recent submission in relation to the above mentioned proposed development and will take it into consideration in its determination of the matter. A receipt for the fee lodged is enclosed.

The Board will revert to you in due course with regard to the matter.

Please be advised that copies of all submissions / observations received in relation to the application will be made available for public inspection at the offices of Dublin City Council and Fingal County Council and at the offices of An Bord Pleanála when they have been processed by the Board.

More detailed information in relation to strategic infrastructure development can be viewed on the Board's website: www.pleanala.ie.

If you have any queries in the meantime, please contact the undersigned officer of the Board. Please quote the above mentioned An Bord Pleanála reference number in any correspondence or telephone contact with the Board.

Yours faithfully,

Kieran Somers
Executive Officer
Direct Line: 01-873 7107

Re: Greater Dublin Drainage Project consisting of a new wastewater treatment plant, sludge hub centre, orbital sewer, outfall pipeline and regional bio solids storage facility.

Case Reference: PL06F.301908

To Whom It May Concern;

The proposed sewage plant mentioned above is now in the final phase of planning. I confirm that I object to the above proposed project and location. I enclose a fee of 50.00euro with this letter. The objections are listed below:

Health and Safety:

As a resident and a parent living in the area for over 20 years I have great concern for my two children who have suffered from asthma their whole lives, that their health could be effected by air pollution caused by day to day works at the plant and/or a major incident. There is no guarantee that an accident will not happen in the proposed plant as it did in the Ringsend plant shortly after becoming operational; which resulted in employees admitted to hospital

Noise Pollution:

Due to operation of the plant local residents such as myself will suffer constant and ongoing noise pollution.

Odour:

No guarantee can be given to local residents that there will be no odour from the plant. Assurances were given to those that lived surrounding the Ringsend plant, yet they had to endure odours. The size of this particular plant is a major worry in regard to odour as no measures put in place could suppress this.

Traffic:

Currently the backlog of traffic from major roads such as the N32 and M1 create congestion around the residential area of Clonshaugh/Priorswood and this will only increase with the volume of traffic if this plant goes ahead. This will also increase the dangers endured by traffic congestions on roads that house young children and families.

As a concerned parent and resident of Clonshaugh I am outraged at the proposal to build such a large sewage plant that is surrounded by a largely populated residential area of young families and children. This will not only affect the livelihood of those in Clonshaugh but also areas stretching out as far as Darndale, Belmayne, Kinsealy, Clarehall, Portmarnock and Baldoyle.

I would ask that An Bord Pleanála to review this proposal again in light of the issues and concerns highlighted.

Yours Sincerely,

Darren Maher
