Re: Greater Dublin Drainage Project consisting of a new wastewater treatment plant, sludge hub centre, orbital sewer, outfall pipeline and regional bio solids storage facility.

To whom it may concern

The proposed sewage plant mentioned above is now in the final phase of planning. I confirm that we object to the above proposed project and location. I enclose the fee of €50 with this letter. Our objections are listed below:

1. Poor consultation, only one meeting held that we were made aware of
2. Too close to housing estates
3. Too close to Schools, nursing homes and special needs facilities for children
4. Negative impact on environment & beaches
5. Negative impact on amenities and local business, will lead to loss of investment in the area
6. Will have a negative impact on building housing developments
7. Huge increase in traffic volumes
8. The sheer size of the facility 13,200sq metres is colossal and possibly not best practice

We ask that An Bord Pleanála to review this proposal again in light of the issues and concerns highlighted.

Yours sincerely
