Re: Greater Dublin Drainage Project consisting of a new wastewater treatment plant, sludge hub centre, orbital sewer, outfall pipeline and regional biosolids storage facility
Townlands of Clonshagh, Dubber and Newtown, County Fingal and Dublin City

Dear Madam

An Bord Pleanála has received your recent submission in relation to the above mentioned proposed development and will take it into consideration in its determination of the matter. A receipt for the fee lodged is enclosed.

The Board will revert to you in due course with regard to the matter.

Please be advised that copies of all submissions / observations received in relation to the application will be made available for public inspection at the offices of Dublin City Council and Fingal County Council and at the offices of An Bord Pleanála when they have been processed by the Board.

More detailed information in relation to strategic infrastructure development can be viewed on the Board's website: www.pleanala.ie.

If you have any queries in the meantime, please contact the undersigned officer of the Board. Please quote the above mentioned An Bord Pleanála reference number in any correspondence or telephone contact with the Board.

Yours faithfully,

Kieran Somers
Executive Officer
Direct Line: 01-873 7107

Re: Greater Dublin Drainage Project consisting of a new wastewater treatment plant, sludge hub centre, orbital sewer, outfall pipeline and regional biosolids storage facility

Case reference: PL06F.301908

To whom it may concern

The proposed sewage plant mentioned above is now in the final phase of planning. I confirm that I object to the above proposed project and location. I enclose the fee of €50.00 with this letter. The objections are listed below:

Consultation WITH CLONSHAUGH

19th November 2014

I note from the Public and Stakeholder Participation Report there was only one meeting held with the Clonshaugh residents and this was in the initial phase on the 19th November 2014. There have been no further meetings and we would be a major stakeholder as the plant will be positioned only 300 meters to the nearest house. The proposed site for this plant is much too close to the residential area, schools, hotels and other local amenities.

29th November 2017

Also in the Public and Stakeholder Participation Report it notes a public information evening was held on 29th November in Northern Cross for Clonshaugh residents, yet no local people seem to know anything about this. Where was the notification posted for this? How many people attended this session? Are there recorded minutes? The proposed plant will be 300 meters from nearest house. The size of the plant is 13,200 square meters, how can this be deemed best practice?

Environmental Issues

Portmarnock only blue flag beach, historical importance

Environmental disasters

Impact on local amenities & business

Nature

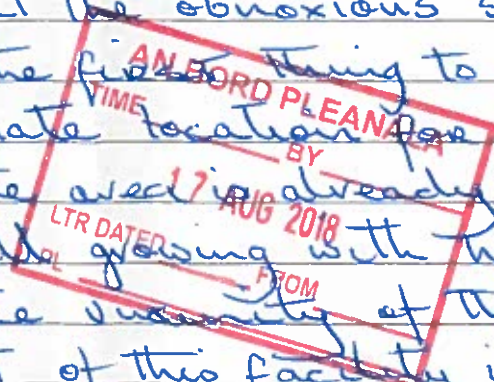

Odour – refer to Ringsend or other plants with odour issues

VERY IMPORTANT – GET A RECEIPT WHICH IS TIMED AND DATED WHEN HANDING IN THE OBJECTION

The odour from this plant affect the whole community of North Dublin. We will no longer be able to enjoy the simple pleasures of outdoor life such as, a walk in the park to take in the fresh air, sunshine and the peace and tranquility of the nature around us. We will lose the joy of watching our children grow strong and healthy through the many outdoor sports and recreation facilities available to them. The simple pleasures of a family picnic, and outdoor BBQ, a bicycle ride and a Sunday trip to the beach will no longer be enjoyed at the level it once was. The noise and constant activity of large trucks traveling back and forward laden with sewage in our already heavily congested main roads is absolute madness. These trucks are planned to use two minor roads in Clonsillaugh. These roads are narrow and winding and are belong to a time of the noise and cost.

Our community already has its fair share of noise and air pollution from Dublin Airport which is now building a third runway to facilitate the extra volume of tourist visiting this beautiful Island please don't let the obnoxious smell from this sewage plant be the first thing to greet them.

This not an appropriate location for a plant of this type and size. The area is already highly populated and is still growing with homes being build in the immediate vicinity of this proposed plant. The development of this facility is a threat to the health and wellbeing of our community please Vote No to this proposed plant.

Handwritten marks and scribbles in the top right corner.
