Board Direction
BD-016962-24
ABP-312131-21

The submissions on this file and the Inspector's report were considered at a Board meeting held on 11/07/2024.

The Board decided to defer this case, to request an addendum report from Inspectorate on the basis of the further information and submissions received subsequent to Board Directions dated 22nd August 2022 & 22nd November 2022, and on the basis of new public notices issued and consideration of further submissions subsequently received, for consideration at a further Board meeting. The addendum report should, inter alia, address the question of whether the discharge of wastewater from the proposed development, in conjunction with existing discharge to receiving waters, would cause or exacerbate breaches of the combined approach.

Board Member:

Stephen Bohan
