Re: Windfarm development including 15 no. wind turbines, 1 no. 110kV electrical substation, 110kV connection line and all associated and ancillary works.
Glenard and other townlands, County Donegal.

Dear Sir / Madam,

I have been asked by An Bord Pleanála to refer further to the above-mentioned case.

The Board is of the opinion that the proposed development to which the application for approval under section 37E of the Planning and Development Act, 2000, as amended, relates would be likely to have significant effects on the environment in a transboundary state – Northern Ireland.

In accordance with Article 124 and Article 126 of the Planning and Development Regulations, 2006, as amended, the Board has notified the Minister for the Communications, Climate and the Environment in Ireland and the Northern Ireland Planning Service (copy of letters attached). The Board would request that a copy of the letters issued are made available for public inspection.

Please note a decision cannot be taken by the Board in respect of an application until the views of the transboundary state have been sought or the consultations are otherwise completed.

If you have any queries in relation to the matter please contact the undersigned officer of the Board.

Please quote the above-mentioned An Bord Pleanála reference number in any correspondence or telephone contact with the Board.

Yours faithfully,

Niamh Thornton
Executive Officer
