Observation details

5. Grounds

Please describe the grounds of your observation (planning reasons and arguments). You can type or write them in the space below. There is **no word** limit as the box expands to fit what you write. You can also insert photographs or images in this box.

(See part 6 – Supporting materials for more information.)

- The history of the building and grounds will be compromised. The last few acres left should be preserved. So much building has gone on with no proper inspection of grounds.
- The proposed remembrance park is less like to have burials on it yet this is being preserved.
- There's been no independent investigation into the missing children. My brother is missing. His body laying somewhere unknown.
- The experts can't agree on the interpretation of the map and they don't know how many children would be buried here therefore there is too much ambiguity as to where the majority of children are buried and therefore should be preserved until such time a full investigation can take place.
- I believe my brother to be buried there without any evidence to saying otherwise. But where?
- The developers and Government didn't consult with me as an advocate for your mother & brother or any other advocates.

5. Grounds

- The apartments are not in keeping with the history of the grounds. It will be another estate of homes. The horrific truth of the grounds History will be lost.

When the Children, women and girls died in Bessborough the State and Council had a Duty of Care to make sure they had a 'right to life' and if they died then their burials should be registered, but there are no records.

Building on the grounds is criminal.
