5. Grounds

Please describe the grounds of your observation (planning reasons and arguments). You can type or write them in the space below. There is **no word** limit as the box expands to fit what you write. You can also insert photographs or images in this box.

(See part 6 – Supporting materials for more information.)

This development follows very quickly after completion of apartment blocks in the old site at Notre Dame School, which has already put traffic and local amenities under significant pressure.

While the Old Town Centre does need rejuvenation, Dundrum and its surrounding areas does not have sufficient infrastructure to cope with 881 new homes and the increase in population that this will bring. Luas services are already packed in both directions every morning, it is unsafe to cycle through many parts of Dundrum.

What does “significant new public realm” even mean?

The development is not compliant with the land use zoning for the Town Centre which requires a mix of uses. This proposal has 95% residential use, and virtually no other uses. Curtyard gardens would be completely insufficient for public open space.

Five storey high buildings would completely destroy the historic value that Dundrum village carries. Some of the current buildings are designated as an Architectural conservation area, and would be destroyed.

The proposal is completely insufficient in terms of community facilities/spaces and services.

The overall height of the development would also completely block the light for many of the houses on the Sweetmount side of the Dundrum by-pass. It would also be extremely overbearing for the remaining properties.
