Observation details

5. Grounds

Please describe the grounds of your observation (planning reasons and arguments). You can type or write them in the space below. There is **no word** limit as the box expands to fit what you write. You can also insert photographs or images in this box.

(See part 6 – Supporting materials for more information.)

- Negative impact on setting of heritage sites - Barrington Tower (a protected structure), and Brennanstown Dolmen (a 5500-year-old National Monument).
- 10-storey buildings are 200m from national monument.
- Lack of verified views up the valley to the development site.
- Application does not include aerial view with montage of new development within context of site. This would show the massive scale proposed.
- Biodiversity issues with Glendruid Valley woodlands – light, noise, and disturbance.
- Over-densification of site. There is no adequate justification of this scale of development, given the highly constrained road infrastructure, difficult topography, and sensitive location beside a neolithic tomb site.
- Inadequate road infrastructure for cars, bicycles, and pedestrians.

Supporting materials

6. If you wish, you can include supporting materials with your observation.

Supporting materials include:

- photographs,
- plans,
- surveys,
- drawings,
- digital videos or DVDs,
- technical guidance, or
- other supporting materials.

If your supporting materials are physical objects, **you must send** them together with your observation by post or deliver it in person to our office. You cannot use the online uploader facility.

Remember: You can insert photographs and similar items in part 5 of this form – Observation details
