Re Broomfield SHD ref no 313361

Dear Sir/Madam,

We wish to lodge an observation regarding the above application and significant changes to the original planning proposals for the adjacent sites. Our young children play on the green outside our house and we feel that the huge increase in the volume of traffic that is planned for the southern road will create an unacceptable risk to their safety.

We also feel that the proposed revised traffic plan is at odds with proper development strategy given that this is the primary open space for Hazelbrook residents and heavily used by children on a daily basis.

We hope the above will be taken into consideration when the board is reviewing the road layouts and traffic management strategy of the proposed planning applications that impact Hazelbrook.

Yours sincerely,

Conor & Nikki Delahunty
