'Ormonde',
 Kilrap,
 Malton Road,
 Cork
 25-07-'21.

Dear Sir or Madam,

Our family object to the proposed development on "Delaney's Site". Development Reference Number is: ABP-31924-21.

Our objections are;

①. The amount of terraced homes and apartment's are too many that is to be developed. It's a big volume which is a significant development that is being constructed.

②. There is another development going on in another area at the moment, so the amount of people, children, cars, vans, bikes, walkers, dog's will

2.

escalate and consume the area. Instead of a towering built-up area, it should be able to break a bit as well as it won't work.

③. The entry via the bridge which is old in structure and visibly not able for the amount of traffic and height of some vehicles. The Bridge needs to be serviced by Engineers to accommodate this.

④. That road is outdated and not suitable for that entry of traffic to come.

⑤. The Blackpool to City Transport Grid is not acceptable or worthy for the cause in transporting the public to town when it feels like it as it is

3.

cutting back the route timetable

(6) The Riverside Park needs to be fenced all along the river front from top to bottom also the opposite side which leads up to our house as it will be a walkway. The river has grown and the current can be strong, so for safety to protect as anybody could fall into it.

(7) There is also a Swamp which needs to be drained. For safety when work starts, a sign should be put up as workers would not know the area is a Swamp.

(8) There is River Rat's, so is the Park going to be maintained?

Thank You; Teresa and Tracy White
