

20 Oakpark Ave

Santry,

Dublin 9

3.8.22

Ref; 314019 Heiton/Buckley Site Santry

To whom it may concern;

I wish to strongly object to the above mentioned proposed development. To this end I enclose the required fee of €20.

The reasons for this objection are many, but to name what I feel are most important.

To date, this area has already been extremely over developed with and in fact if all the proposals were to go forward, we would have a population on par with Co. Kilkenny. To date, so many older people have had to move out of the area because they felt completely overwhelmed with the impact the apartment blocks have made. Some of these people were actually born and raised here in Santry

This area has not, structurally changed since the days of horse and cart. They are still the original roadways.

The infrastructure has not grown in line with the developments to include, schools, crèches, and medical facilities. I personally, have been unable to secure an immediate GP visit while being extremely sick, sometimes having to wait for over a week for an appointment.

Visually, fourteen stories in this village will seem incongruous, not to mention depressing, as it will fail to integrate or enhance the character of the surrounding area

I believe the building of these multi storey apartments, contravene current climate change agendas, as most new apartments have no alternative but to use dryers, although given the energy prices, people will also dry clothes on radiators, which in turn lead to health problems.

it is well documented that this type of high rise buildings are not fit for proper quality of life, as was proven during the 'Ballymun Towers' era.

I cannot stress enough how strongly I feel about this objection and hope you can honestly give this the attention it merits.

I have lived here for almost forty years and would never have envisaged the beautiful little village being destroyed the way it has. I cannot afford to move out and also don't feel like I should have to. I have worked hard and paid taxes all my life and quite frankly could do without all this.

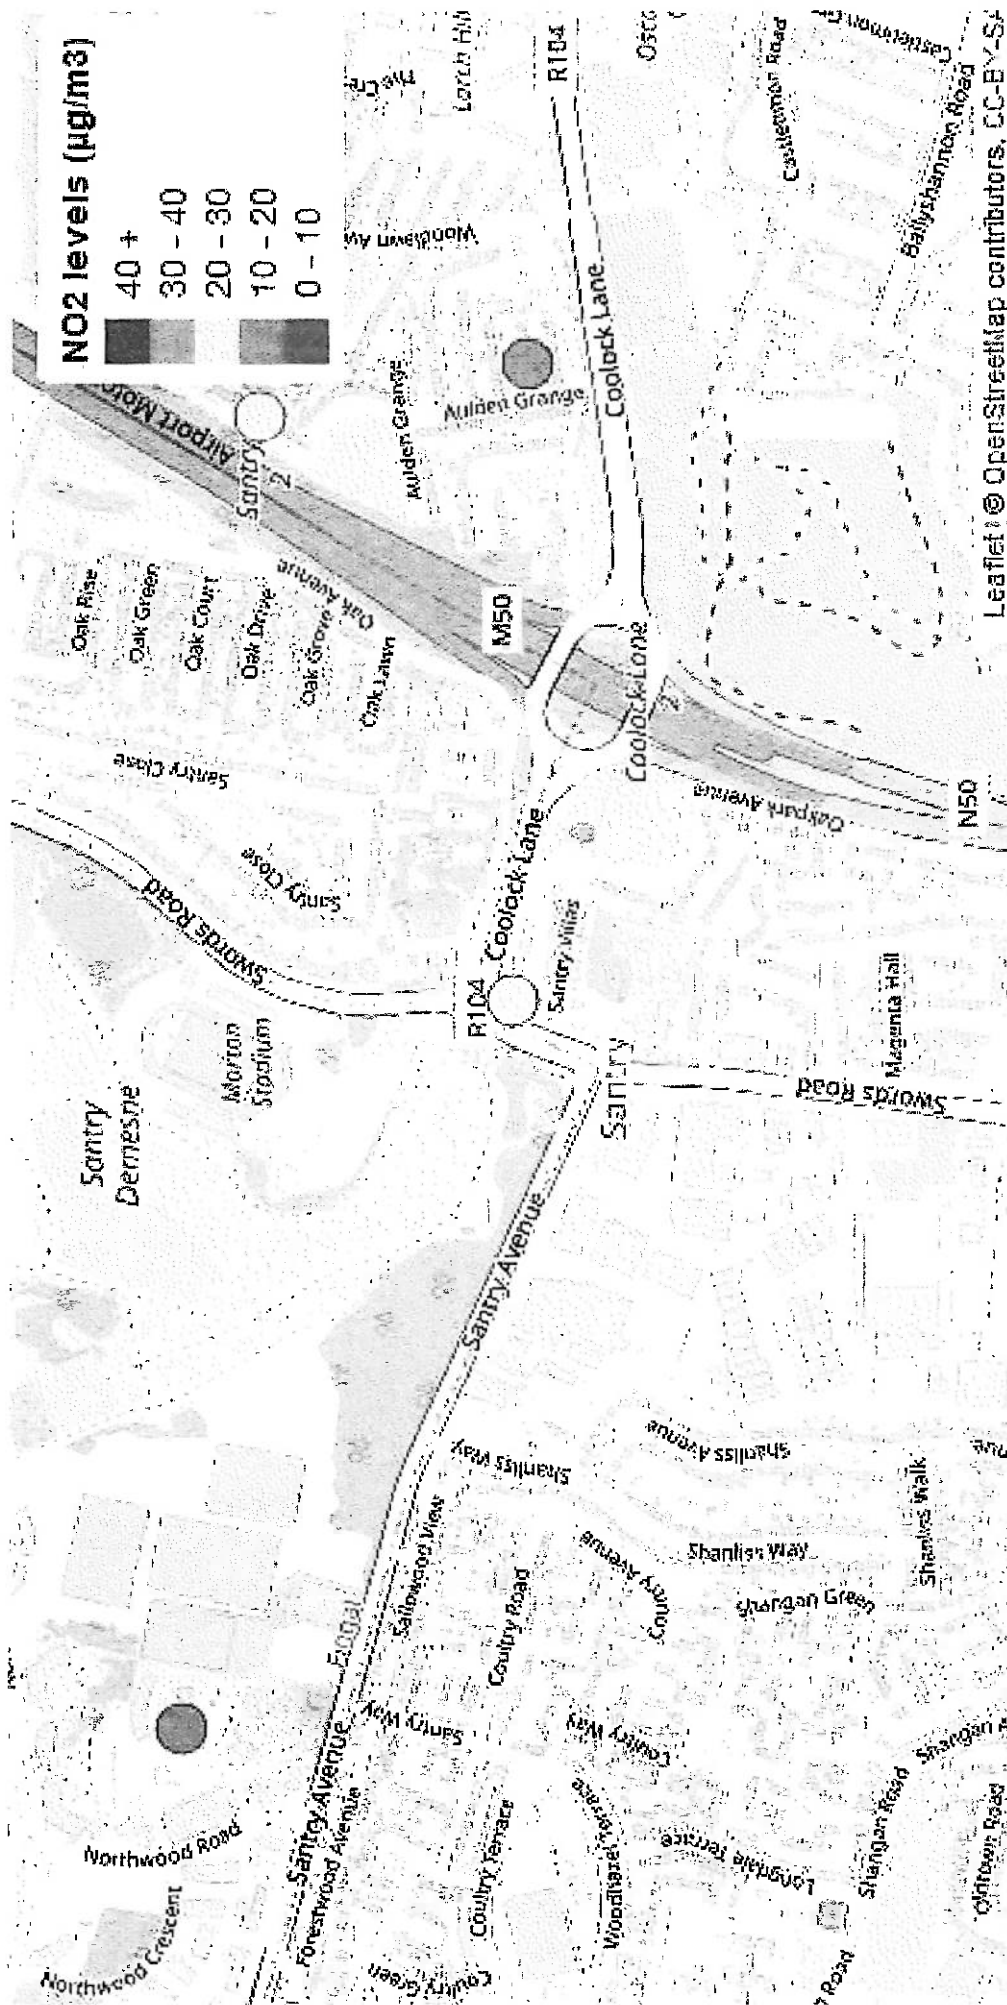

Just to reiterate I have no objection to building houses for people but am totally opposed to this monstrosities

Yours sincerely

NO2 levels (µg/m3)

Map of the Dublin region showing NO₂ levels (µg/m³) in 1991. The map displays various locations including Dunboyne, Blanchardstown, Rathfarnham, and Dublin City. A legend indicates NO₂ levels: 40+ (darkest), 30-40, 20-30, 10-20, and 0-10 (lightest). The map shows a high concentration of NO₂ in the central urban area, particularly around the city center and along major roads.

¹ A 15-minute city/neighbourhood is a neighbourhood in which you can access all of your most basic, day-to-day needs within a 15-minute walk of your home. It is also sometimes called a complete neighbourhood.

Objection to: Plan No
