

M4 Flooding Maynooth

November 2017

- Heavy rainfall across the country has resulted in a number of road closures and massive traffic delays all over throughout today, and it is set to disrupt commuter traffic emerging from Dublin this evening. Kildare County Council have emergency crews out trying to deal with the severe flooding across the county, but a number of roads remain closed and a number of routes are badly affected by surface water. The biggest traffic issue this evening is on the M4 between J7 Maynooth and J8 Kilcock where flooding has reduced the road to just one lane, ensuring there are major delays coming out of the capital from that direction. Motorists are being advised to avoid that area.
