Dart+west Electrified Heavy Railway

I object to my land being
flooded by Dart+west.

My land is between 66 and 67
meters above sea level.

Taking 1 meter depth off
3 acres at this level will make no
difference to the flood plane, as no
water will flow up here.

My land is not near the
River Valley about 250 meters from
the river so this makes no sense
at all.
