

Observation on planning Ref: 314458

- No local area plan for Santry
- No provision for new schools
- Issue of overcrowding and overshadowing
- Risk of antisocial behaviour that generally comes with overcrowding and “nothing to do”
- No extra provision for local healthcare and community
- Adding more apartments brings in more people with more cars and we already have chronic traffic issues. Let’s not forget that these apartments won’t cater for cars for everyone that moves in, this will lead to people parking their cars in the nearby estates.
- Our road has become a rat run and we are forced to keep windows closed due to the pollution and noise.
- Santry was once a nice quiet place and is now bursting at the seams. There is just one build after another without any thought or consideration for the existing residents.
