Re: Direction 01 by the Competent Authority in relation to planning application F20A/0668 under Section 9(10) of the Aircraft Noise (Dublin Airport) Regulation Act 2019 to provide information and assessments for the purposes of an Assessment of the Noise Situation at the Airport

Dear Gavin,

We wish to acknowledge your most recent correspondence dated 23rd July 2021, in which additional information has been provided in response to ANCA's Direction 01, dated 24th February 2021.

It is important to note the following:
This original Direction 01 of 24th February 2021 issued by ANCA, suggested the date of 24th July 2021 as being reasonably practicable to provide all the information identified in Appendix A to ANCA's Direction. There is outstanding information required, which as you have pointed out will be provided in due course. Additionally, you have highlighted that all information provided to date is in draft form.

It would be helpful if you would provide your response date for the outstanding information and to confirm that the information provided to date is no longer in draft format. For expediency, considerable assessment has already been carried out using this draft information. It is important to highlight that changes to this information may impact the work done on ANCA's assessment of the noise situation at Dublin Airport and might therefore extend the time required for the assessment process.

Yours faithfully,

Ethna Felten
Director of Services
