Re: Proposed development of a Circular Economy Campus and san Integrated Waste Management Facility at the Hollywood Landfill
Hollywood Great, Nag's Head, Naul, Co. Dublin, A41 YE92

Dear Sir / Madam,

I have been asked by An Bord Pleanála to refer further to the above mentioned proposed development which is before the Board for consideration.

Please be advised that the Board, in accordance with section 37(F)(1) of the Planning and Development Act 2000, as amended, hereby requires you to furnish the following further information in relation to the effects on the environment of the proposed development:

1. The proposed development as described in the public notice refers to the enhancement and expansion of the established waste and recovery operations at the site. It also refers to the proposed development consisting of expanded waste treatment activities and enhancement of the existing aggregate recovery processing on site including upgrading of the aggregate recovery operations and additional waste recovery activities. The Board notes an existing permission F19A/0077 (Fingal County Council) that allows the continued infilling with C&D waste at a rate of 500,000 further fifteen years from the date of expiration of the existing permissions 'in order to enable the lands to be fully restored to the original ground level'. On review of the site notice and the entirety of the documentation on file, the current application before the Board appears to rely on permitted/authorised development for aggregate recovery including processing on-site and removal off-site rather than infilling on site. In this regard, the applicant is requested to provide details of any planning history, supported by documentary evidence, to demonstrate that any such existing aggregate recovery including processing on site followed by exportation off-site and/or any existing waste recovery activities, as a baseline for the current proposal, are authorised / permitted development within the meaning of the Planning Acts.

2. Provide details of anticipated waste infill and recovery volumes and heavy goods traffic movements associated with the proposed development over the intended 25 year life of the project, having regard to the nature of the proposal to change from infilling of the quarry void for restoration purposes to also include aggregate recovery including processing on site followed by exportation off-site.

The further information referred to above should be received by the Board within 3 weeks from the date of this notice, later than 5.30 p.m. on the 25th April 2024.

In this regard, please submit 2 hard copies and one electronic copy of the above information.

Please note that following its examination of any information lodged in response to this request for additional information, the Board will then decide whether or not to invoke its powers under section 37(F)(2) of the Planning and Development Act 2000, as amended, requiring you to publish notice of the furnishing of any additional information and to allow for inspection or purchase of same and the making of further written submissions in relation to same to the Board.
