Re: Proposed increase of waste intake from 270,000 to 450,000 tonnes per year and associated works at an existing waste facility at Millenium Business Park, Cappagh Road, Dublin 11
Cappagh Road, Dublin 11

Dear Sir / Madam,

An Bord Pleanála has received your submission in relation to the above mentioned proposed development and will take it into consideration in its determination of the matter.

The Board will revert to you in due course in respect of this matter.

Please be advised that copies of all submissions / observations received in relation to the application will be made available for public inspection at the offices of the local authority and at the offices of An Bord Pleanála when they have been processed by the Board.

More detailed information in relation to strategic infrastructure development can be viewed on the Board's website: www.pleanala.ie.

If you have any queries in the meantime please contact the undersigned officer of the Board. Please quote the above mentioned An Bord Pleanála reference number in any correspondence or telephone contact with the Board.

Yours faithfully,

Breda Ingle

Proposed increase of waste intake from 270,000 to 450,000 tonnes per year and associated works at an existing waste facility at Millenium Business Park, Cappagh Road, Dublin 11

Dear Sir/Madam,

I refer to your correspondence received on 11 December 2023 requesting comments from the Agency on the above Strategic Infrastructure Development (SID) application and Environmental Impact Assessment Report (EIAR) by Starrus Eco Holdings Ltd. The Agency makes the below observations.

IPODEC Ireland Limited was issued a Waste Licence (W0039-02) on 04 September 2000 for a facility located at Ballymount Cross, Tallaght, Dublin 24. This appears to be the same location as the proposed development. The licence was transferred to Nurendale Limited trading as Panda Waste Services on 10 July 2012. The licence was transferred from Nurendale Limited trading as Panda Waste Services to Starrus Eco Holdings Limited on 22 June 2018.

In accordance with the 2013 amendment of the EPA Act and Waste Management Act and to give effect to the Industrial Emissions Directive, the licence W0039-02 was amended on 16 December 2015 to incorporate the requirements of an Industrial Emissions Licence and for the below listed activities:

Regulated Activity	Main Class	Activity Description (Regulated Activity)	Name
11.4 (b)(ii)	Yes	Recovery, or a mix of recovery and disposal, of non-hazardous waste with a capacity exceeding 75 tonnes per day involving one or more of the following activities, (other than activities to which the Urban Waste Water Treatment Regulations 2001 (S.I. No. 254 of 2001) apply): pre-treatment of waste for incineration or co-incineration;	
11.1	No	The recovery or disposal of waste in a facility, within the meaning of the Act of 1996, which facility is connected or associated with another activity specified in this Schedule in respect of which a licence or revised licence under Part IV is in force or in respect of which a licence under the said Part is or will be required.	

Please note that the licence application pertaining to this licence (Register W0039-02) was accompanied by an Environmental Impact Statement (EIS). Details of the licence application, EIS, licence and any amendments made to the licence may be viewed on the Agency's website www.epa.ie. The licence may need to be reviewed or amended to accommodate the changes proposed in the above SID application.

It is noted that the SID application was accompanied by an EIAR. As part of its consideration of any licence review application that may be received which addresses the changes proposed, the Agency shall ensure that before the revised licence is granted, the licence application will be made subject to an Environmental Impact Assessment as respects the matters that come within the functions of the Agency and in accordance with Section 83(2A) and Section 87(1G)(a) of the EPA Act. In addition, consultation on the licence application and EIAR will be carried out in accordance with Section 87 (1B) to (1H) of the EPA Act as appropriate. Please also note that you will be requested to provide the documentation relating to the EIA you have carried out to the Agency under Section 173A(4) of the Planning and Development Act 2000 as amended.

Should a licence review application be received by the Agency, all matters to do with emissions to the environment from the activities proposed, the licence review application documentation and EIA will be considered and assessed by the Agency.

Where the Agency is of the opinion that the activities, as proposed, cannot be carried on, or cannot be effectively regulated under a licence then the Agency cannot grant a licence for such an activity. Should the Agency decide to grant a licence in respect of the activity, as proposed, it will incorporate conditions that will ensure that appropriate National and EU standards are applied, and that Best Available Techniques (BAT) will be used in the carrying on of the activities.

Finally, please note that in accordance with Section 87(1D)(d) of the EPA Act, the Agency cannot issue a Proposed Determination on a licence review application which addresses the development above until a planning decision has been made.

For all further queries and correspondence relating to planning matters, please contact eiaplanning@epa.ie

Re: Proposed increase of waste intake from 270,000 to 450,000 tonnes per year and associated works at an existing waste facility at Millenium Business Park, Cappagh Road, Dublin 11
Cappagh Road, Dublin 11

Dear Sir / Madam,

I refer to the above mentioned proposed development which is the subject of a current application for planning permission.

This application has been made directly to An Bord Pleanála under the provisions of the Planning and Development Act 2000, as amended, in respect of proposed developments classified as strategic infrastructure development. It is understood that a copy of the application and the Environmental Impact Assessment Report was forwarded to the Environmental Protection Agency. In accordance with section 87 of the Environmental Protection Agency Act 1992, as amended, you are requested to:

- (i) Confirm to the Board that the proposed development the subject of the application for permission is development comprising or for the purposes of an activity requiring a licence or a review of a licence on the application, under section 83 and under section 90(1)(b) of the Act
- (ii) If a licence or a review of a licence is required, you are also requested to submit to the Board observations you may have on the application for permission including the environmental impact assessment.
- (iii) Accordingly, any observations or response in relation to the proposed development should be received by the Board not later than 4 weeks from the date of this request i.e. **not later than 5.30pm on the 15th January 2024.**

If you have any queries in relation to the matter, please contact the undersigned officer of the Board on laps@pleanala.ie

Please quote the above-mentioned An Bord Pleanála reference number in any correspondence or telephone contact with the Board.
