Hi Eimear,

My married name would be Rosemarie Lynch but it isn't changed legally, so my legal name is Rosemarie Kiernan, I mentioned this to the girl who took my call when I called first about the letter received in the post.

If you need anything further please let me know.

Regards,
Rose

Good afternoon Rose

I refer to your submission below on the Dart + South West Railway Order application which is currently before the Board under ABP-316119-23.

For the Board records, could you please confirm that your name is Rosemarie Lynch, as stated on the CPO schedule associated with this application?

Many thanks

Eimear

Subject: Dart & South West Railway Order Application

To whom it may concern,

I am submitting this email as I am not in agreement with the information pack I received in the post. A staff member of Iarnrod Eireann visited my property and advised my husband that there would be no wall going up at the end of our garden but on contacting your office the receptionist told me that a high retaining wall will definitely be going up. The only source of sunlight we get in the back garden comes in the direction of where this wall will go up and will more than likely block a lot of sunlight we get.

There will be soil anchors going underneath the back garden which is our property. Unfortunately no one can see the issues that could arise over the years with these anchors in place. What measures have Iarnrod Eireann put in place for any damages that arise down the road?

This Dart is to run from 6am to 11pm and we will have no use for this Dart ourselves as there will be no stop in Ballyfermot.

The noise pollution is a real concern of mine with having 2 young children who both sleep at the back of the house, how are they to sleep with a Dart running until 11pm every night?

We already have trouble with rodents in this area and in our house at the minute with the existing train lines, all this work will have a big impact with rodents.

You note in your letter that we should seek advice in relation to these works, are you going to provide affected property owners with legal advice if necessary?

Kind Regards

Rose Kiernan
