Just want to submit some of my concerns . How far are sand anchors going into my garden will it affect my extension and house foundation .will it affect my shed down the end of my garden.what will noise level be like when work is being carried out and if and when trains will be running . Will ballyfermot be given a new station so people from the area can access it .would really prefer if this didn't go ahead as some trains already cause vibrations in my house and don't want to be adding to it .
