Re: Proposed development of Oweninny Wind Farm Phase 3 consisting of 18 wind turbines.
Within the townlands of Laghtanvack, Croaghaun (also known as Croaghaun West), Moneynieran,
Corvoderry, Shanvolahan, Dooleg More, Shranakilly, Bellacorrick and Shanvodinnaun, Co. Mayo

Dear Sir / Madam,

An Bord Pleanála has received your recent submission in relation to the above mentioned proposed development and will take it into consideration in its determination of the matter. Please accept this letter as a receipt for the fee of €50 that you have paid.

The Board will revert to you in due course with regard to the matter.

Please be advised that copies of all submissions / observations received in relation to the application will be made available for public inspection at the offices of the local authority and at the offices of An Bord Pleanála when they have been processed by the Board.

More detailed information in relation to strategic infrastructure development can be viewed on the Board's website: www.pleanala.ie.

If you have any queries in the meantime please contact the undersigned officer of the Board. Please quote the above mentioned An Bord Pleanála reference number in any correspondence or telephone contact with the Board.

Yours faithfully,

Sarah Caulfield
Executive Officer

I would like to object to Case No 316178. On the ground of this area is over develop as there is large 29 turbines there since 2018/2019 and 21 small turbines already. They want to take down the 21 small turbines and put up 18 very large turbines in there place. As it is I can see all the turbines from ~~the~~ all the rooms in my front of my home. Since Oweninny wind farm started spinning in to 2019 we have had to put up noise day and night. The noise would get worst at night. We have had shadow flicker several times every years. Oweninny has not sorted out this problem to date. We also shadow flicker from Phase 2 of the Oweninny wind farm since they started spinning late last year.

Everyone is happy to give wind farm planning permission but not one person cares about the people who have to live beside them. So from Phase 1 of the Oweninny wind farm we have shadow flicker in the morning and from Phase 2 we have it in the evening. They also want to build a synchronous condenser development on front of us.

- 1 This is a boggy area.
- 2 There are already 29 turbines which is causing a lot of trouble to local people/family. Noise and shadow flicker, deers, wild life, water and dust.
The small turbine never give any ~~trouble~~ trouble.
- 3 When ~~g~~ we get up in the morning we hear the noise from the turbines and we have ~~to~~ listen to them all day and they get worst at night. We could up a few times at night with the noise and they want to add more noise to it.
- 4 Deers are a big problem here we had no problem until BNM and ESB starting cut down trees to build these wind farms. The noise

from the wind farm is driving the deers out on to the roads on front of cars. There has been a good few accident with deers coming out on front of cars to date.

As it is we have 29 large turbi and 21 small turbines on front of my home and 31 turbines at the back of my house. This is to much turbines and there are 8 more turbines going up at the back of house not 5k away. If our eminy want to take down the small turbines we have to problem with that but not to put up larger one to replace them. Please do not give them to permission to make our lifes worst that it is

Yours faithfully
Eileen, Alan, Patrick, James, Shane,
Gabriella, and Caitlin Mullarkey.
