Hi sarah,

I can confirm the extension for this deadline has been extended.

The new proposed deadline for this response is the **7th of March 2024**.

Kindest Regards,

Lauren

Good Morning

We have received the attached along with responses to our Submissions Response Document for Firlough Wind Farm and Hydrogen Project.

The deadline for our response is the 22nd of February. Would it be possible to extend this by two weeks to the 7th March please?

We have a number of people on annual leave and while the majority of responses are already addressed in our initial response the volume of queries will require some further time to properly address/direct the reader to where these are already addressed.

Could you also confirm if an electronic copy or hard copy is required?

Kind regards

Sarah Jones
