To whom it may concern

I, the undersigned wish to state that I own and farm land in Carra, Bonniconlon on L6612, which is named as the construction haul route for Firlough Wind Farm and Hydrogen Plant project. My family home is also on this proposed route and I was dismayed to read the following:

4.12.4 Consents

A number of observations raised concerns that the relevant Statutory consents were not in place for works required along the public road for Grid Connection, Interconnector and works to haul routes including for passing bays. All landowner consents for these works are in place.

It would be prudent that An Bord Pleanála seeks proof of the landowner consents as 70% of the land adjacent to the L6612 is not in control of the applicant.

I also wish to state that I have not been consulted nor have I given consent for proposed passing bays and road widening on my lands on L6612.

I request an oral hearing on this proposed project.

Signed: John Bourke
