RE: An Bord Pleanála Planning Request (“Request”)

Dear Christopher,

I refer to the above Request, and to your email of 8 May 2025.

EirGrid can confirm the existence of a transmission connection agreement between EirGrid plc and Amazon Data Services Ireland Limited (“**ADSIL**”) dated 19 June 2017, subsequently amended by several iterations, with the most recent modification to the connection agreement dated 14 February 2025..

This agreement relates to the connection to the electricity transmission system of a demand facility comprising ADSIL’s campus at Cruiserath, Dublin 15. The agreement provides for a Maximum Import Capacity (MIC) of 240 MVA and this demand has been accounted for in our 10-year Generation Capacity Statement / National Resource Adequacy Assessment Methodology. .

As regards any specific buildings which may be the subject of any ADSIL appeal to An Bord Pleanála, EirGrid has no involvement in the layout or configuration of customer facilities from the points at which the facility meets the transmission system, beyond contracting for their electricity supply.

Yours sincerely,

Sent by email bearing no signature
