Re: Planning Application for Ref 22/340 wind farm At Boolyvannanan Renewable energy Ltd  
.Coolnakisha, Leighlinbridge, Co Carlow.

I wish to object to the above planning application; here I will outline my reasons.

1. We have our own drilled well supplying us with fresh clean drinking water and we are extremely worried about the water level, and the risk to our health and the health of our family from the possibility of pollution to our water supply. What guarantees can be given us that this will not happen?
2. We feel it will destroy our enjoyment of the scenic views of the local rural countryside and of the scenic Ridge Drive, which is on this route. We also are very keen walkers and we feel our enjoyment of the peace and tranquillity of the area would be destroyed by the noise pollution and visual height and blade diameter of these turbines
3. Coolnakisha is a very rural countryside with plenty of forestry and with purposed to cut down 18 hectares of forestry so therefore nesting lots of wildlife e.g. rabbits, hares, foxes, nesting birds and many more such as the hen harrier, but with the large amounts of disruption by the dig and the felling of the forestry and by the heavy vehicles our wildlife will disappear.
4. This purposed wind farm is very close to homes in the area, and to date we have no commutations from the company of how far these new bigger turbines are away from our homes in the area we ask An Bord pleanala to look into this, also flight path which we often see planes and helicopter's fly low across the hill.
5. Lastly, as our residence where we have lived for many years, is situated very close to this proposed site with the height and the blades we feel our enjoyment of the peace and tranquillity of our area would be destroyed by the noise pollution and visual pollution height and blade diameter of these turbines

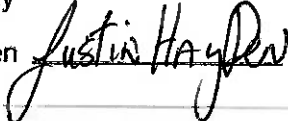

We are now asking An Bord pleanala to take into consideration the points we have outlined above and reject this planning application, as we feel the quality of life we are used to here in Coolnakisha would be

ruined forever and we feel it would go against the Carlow County Development Plan regarding our quality of life here in Coolnakisha.

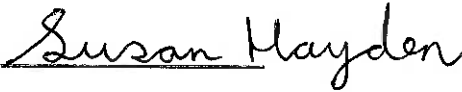

Enclosed €220 fee for objection.

Your sincerely

Justin Hayden

Susan Hayden

Co. Carlow

To whom it may concern:

Re: Planning Application for Ref  
Wind Farm at Ballyvannan Renewable  
Energy Ltd, Coolnorkisla Leightlinbridge (Carlow)

I wish to object to the above planning  
permission and I will outline my objections.

1. I have lived and built my own house  
here in Coolnorkisla, many years ago  
and I feel the proposed Wind Farm and  
the size of the blades will ruin the scenery  
and the enjoyment of the area would be  
disturbed by the noise of the blades  
and with the amount of felling they want  
to do, would be hazardous to the local wildlife  
such as the nesting birds, foxes and hares.

2. I would ask An Bord Pleanála to look  
into this proposed Wind Farm as I live  
very near where the turbines are planning  
to be built and as yet I have had  
no communication with anyone from the  
company telling me exactly where and →

how big these turbines are going to be.  
3. I love my own well, which  
supplies me with clean fresh  
drinking water and I would be very  
worried and the water level and with  
the company building and digging  
up the forest that could have  
health issues for my family regarding  
water pollution and I would be  
afraid my well and water would  
go dry.

I am asking An Bord Pleanála to  
look into all of the points I have  
written down and reject this planning  
permission again, I feel where  
I live, where is Coolnoishla  
would never be the same again  
if these turbines were built

Yours Sincerely  
Mary Farrell
