Re: Recirculation and Re-advertisement of Section 132 Response
Date: 17th of June 2026

I refer to the above appeal currently under consideration by the Commission. The Commission issued a request for further information on the appeal under Section 132 of the Planning and Development Act as amended on the 16th of February 2026.

The applicant's response to the Section 132 request was received by the Commission on the 15th of June 2026. On review of the Section 132 response, I note that new survey information (tree survey, bat survey, additional noise and dust survey information and water quality monitoring) and revised documentation (Ecological Impact Assessment) has been submitted.

I consider that the Section 132 response is significant and merits recirculation. I furthermore recommended that the Section 132 response is readvertised and request that the applicant be notified of their requirement to do so.
