Re: Proposed development of a resource recovery centre (including waste-to-energy facility)
in Ringaskiddy, County Cork.

Dear Sir / Madam,

An Coimisiún Pleanála has received your recent submission in relation to the above mentioned proposed development and will take it into consideration in its determination of the matter. Please accept this letter as a receipt for the fee of €50 that you have paid.

The Commission will revert to you in due course with regard to the matter.

Please be advised that copies of all submissions / observations received in relation to the application will be made available for public inspection at the offices of the local authority and at the offices of An Coimisiún Pleanála when they have been processed by the Commission.

More detailed information in relation to strategic infrastructure development can be viewed on the Commission's website: www.pleanala.ie.

If you have any queries in the meantime please contact the undersigned officer of the Commission. Please quote the above mentioned An Coimisiún Pleanála reference number in any correspondence or telephone contact with the Commission.

Yours faithfully,

Kevin McGettigan
Executive Officer

OBSERVATION ON SID APPLICATION - Case reference: PA04.318802, Ringaskiddy Co Cork

Proposed development of a resource recovery centre (including waste-to-energy facility)
by Indaver NV t/a Indaver Ireland

OBSERVER NAME Bill O'Leary & Elspeth Cameron DATE 9th Nov 2025

OBSERVER ADDRESS ~~Coolattin, Lake Road, Cobh, Cork. P24FW-73~~.....
.....

OBSERVATION DETAILS

Notwithstanding the information submitted in August 2025, the site is fundamentally too small for the project proposed and continues to reduce in size, with coastal erosion on one side and boundary reduced by M28 on the other. *It is considered that the actual usable area of the site is inadequate in relation to the scale of development proposed. (Derek Daly, 2017).*

By all 3 Bord Pleanala Inspectors, the EIS was found to be deficient in substance even where found legally adequate in form. *The information as submitted to the Board is therefore insufficient to enable the Board to carry out an environmental impact assessment in an appropriate manner, and to form a basis for an informed decision on the application. (Daly, 2017).* Despite revisions, the updated EIS material continues to repeat earlier conclusions and provide assertions without evidence.

There is no de novo site selection in the material submitted in 2025, but instead a justification based on site ownership by Indaver, with inadequate consideration given to major public and private investment initiatives which have transformed the character of the immediate area in the intervening period since 2000. *(Daly 2017)*

The site is located on a known flood risk area, marked as same in Table 4.1.17: Specific Development Objectives for Ringaskiddy, and on OPW floodinfo.ie , (Flood Summary ID-1364, 13082, 12085). *Mitigation measures to locate the facility at levels significantly above projected flooding levels would exacerbate the negative visual impact of the proposed large structure. It is my considered opinion that the site is inherently unsuitable for location of a use which processes and generates hazardous compounds. (Oznur Yukel Finn, 2009)*

Notwithstanding the zoning of the greater Ringaskiddy area as industrial, the Indaver site area where the incinerator build is proposed (RY-I-09) is zoned as *suitable for the extension of the Third Level Educational campus and enterprise related development including marine related education, enterprise, research and development. (RY-I-09, Table 4.1.17: Specific Development Objectives for Ringaskiddy, Cork County Development Plan 2022 - 28)* This is dismissed in the August 2025 information but it is of critical importance that this zoning be upheld as it is directly linked to the investment in the NMCI and MaREI Campus areas and the potential for future growth of this sector. The proposed incinerator is therefore in direct contravention of the County Development Plan and contrary to the specified objectives for the immediate area.

Please refuse this planning application on the basis that the site is inherently unsuitable, concluded by all 3 Bord Pleanala Inspectors (Jones 2004, Yukel Finn 2009, Daly 2017) and the proposal contravenes the zoning of the Cork County Development Plan 2022 - 28 for this site.

Furthermore, any industrial development at this juncture conflicts and has been superseded by the Cork County Development plan 2022-2028 and the plans for tourism in the region. Not adhering to the particulars of this plan would significantly undermine it and our trust as taxpayers in our public bodies. How it is

- I enclose fee of €50. I have already submitted in 2016 so have paid prior fee Additional pages attached (no of)

anticipated that such an incinerator would reside alongside new education and research facilities is also highly questionable. The original recommendation of the inspectors is in our opinion, further strengthened by ongoing coastal erosion and CPO completed for the new roadway. It is our belief that the recommendations of the inspectors must be respected and honored. It is important that the planning process, which we know has been questionable in this case and many other cases with objective bias, is seen to be wholly transparent. You have one final chance to honor the taxpayers in this region and allow the continuation of the remarkable growth in the Harbour leisure and tourism development in what is globally recognized as one of the most beautiful Harbours in the world. Cobh has already long since paid its dues in terms of heavy industry provision with Irish Steel and Verolme dockyard. Times have moved on. Please do the right thing.

I wish to request an Oral Hearing to continue full public participation in this application.
