I am objecting to this incinerator as

I do not want it near my home. I

would be concerned about the health

risks for me and my family. I am a

nurse working in GUTH and see the

increase of cancer every year. I

feel the incinerator will not eliminate

waste and it would transform into

gases, fine dust & ash, all containing

harmful pollutants. From what I

understand these **emissions** can

spread within a 40-mile radius

affecting a load of towns. These

pollutants would be unmeasured and

very **unsafe**. They also could end up in

our water and food so No. We are also

trying to protect our environment.

Thank you and please decline Indaver's

planning application!

Kind Regards,
Colette Murphy
