Date: 05 January 2026

Re: Proposed development of a resource recovery centre (including waste-to-energy facility)
in Ringaskiddy, County Cork.

Dear Sir / Madam,

An Coimisiún Pleanála has received your recent submission in relation to the above mentioned proposed development and will take it into consideration in its determination of the matter. Please accept this letter as a receipt for the fee of €50 that you have paid.

The Commission will revert to you in due course with regard to the matter.

Please be advised that copies of all submissions / observations received in relation to the application will be made available for public inspection at the offices of the local authority and at the offices of An Coimisiún Pleanála when they have been processed by the Commission.

More detailed information in relation to strategic infrastructure development can be viewed on the Commission's website: www.pleanala.ie.

If you have any queries in the meantime please contact the undersigned officer of the Commission. Please quote the above mentioned An Coimisiún Pleanála reference number in any correspondence or telephone contact with the Commission.

Yours faithfully,

Kevin McGettigan

Observation on SID Application Ref PA04 318802 Ringaskiddy Co.Cork
Proposed Development of an Incinerator by Indaver NV t/a Indaver Ireland

Much about pollution has changed since this application was first mooted 24 y ago

- 1 Global warming from emission is no longer an academic exercise It is a daily reality
Incineration would detrimentally & dramatically increase warming
- 2 24 years ago we did not know about micoplastics, Now our fresh water contain these contaminants
Incineration gases will add further unknown Toxins to the surrounding areas
- 3 The Harbour area is a resource & needs protection not exploitation
2 out of 3 gas monitoring stations meant to protect us are not operating -
- 4 Recycling centres reveal how much waste is created by packaging
Bio degradable packaging & reusable containers are the future-Not incineration
- 5 Monitoring of materials by road to feed the plant is as important as the toxins created by the smoke
Once permission is given - forget monitoring - anything goes - there is no protection
- 6 Cork is second largest harbour in the world known internationally for its beauty , sailing & clean waters
Public meetings **If Incineration is such a good Idea why was no-one from Indaver arguing their case**
- 7 1983 World 505 Championships (F1 of sailing) were in Crosshaven The winning boat 's message read

Left side

Pharmaceutical Recreation

Right side

Complex Chemicals Kill

- 8 The sailors campaigned in USA where industries were dumping their waste in the sailing waters regardless
42 years ago environment fight against pollution is more relevant today as we feel the results climate change
- 9 Question What other sites in Ireland have been considered by Indaver. If not why not
If the Smelter was removed for environmental reasons
Who thought an Incinerator was a good idea
2 Qualified inspectors said NO it was a bad idea
- 10 How many times have the people who live in Cork made their opinions clear
NO-----NO----- NO !
