

**Our Case Number:** ABP-318802-24

**Planning Authority Reference Number:**

**An  
Coimisiún  
Pleanála**

Gavin Williamson  
Stella Maris  
Graball Bay  
Crosshaven  
Cork

**Date:** 19 November 2025

**Re:** Proposed development of a resource recovery centre (including waste-to-energy facility) in Ringaskiddy, County Cork.

Dear Sir / Madam,

An Coimisiún Pleanála has received your recent submission in relation to the above mentioned proposed development and will take it into consideration in its determination of the matter. Please accept this letter as a receipt for the fee of €50 that you have paid.

The Commission will revert to you in due course with regard to the matter.

Please be advised that copies of all submissions / observations received in relation to the application will be made available for public inspection at the offices of the local authority and at the offices of An Coimisiún Pleanála when they have been processed by the Commission.

More detailed information in relation to strategic infrastructure development can be viewed on the Commission's website: [www.pleanala.ie](http://www.pleanala.ie).

If you have any queries in the meantime please contact the undersigned officer of the Commission. Please quote the above mentioned An Coimisiún Pleanála reference number in any correspondence or telephone contact with the Commission.

Yours faithfully,

Kevin McGettigan  
Executive Officer

TO: An Coimisiun Pleanála 64 Marlborough Street Dublin 1, D01 V902 OBSERVATION ON SID APPLICATION - Case reference: PA04.318802, Ringaskiddy Co Cork Proposed development of a resource recovery centre (including waste-to-energy facility) by Indaver NV t/a Indaver Ireland  
OBSERVER NAME: Gavin Williamson DATE 13<sup>th</sup> Nov 2025

OBSERVER ADDRESS – Stella Maris, Graball Bay, Crosshaven, Cork.

#### OBSERVATION DETAILS

- Notwithstanding the information submitted in August 2025, the site is fundamentally too small for the project proposed and continues to reduce in size, with coastal erosion on one side and boundary reduced by M28 on the other. It is considered that the actual usable area of the site is inadequate in relation to the scale of development proposed. (Derek Daly, 2017).
- By all 3 Bord Pleanála Inspectors, the EIS was found to be deficient in substance even where found legally adequate in form. The information as submitted to the Board is therefore insufficient to enable the Board to carry out an environmental impact assessment in an appropriate manner, and to form a basis for an informed decision on the application. (Daly, 2017). Despite revisions, the updated EIS material continues to repeat earlier conclusions and provide assertions without evidence.
- There is no de novo site selection in the material submitted in 2025, but instead a justification based on site ownership by Indaver, with inadequate consideration given to major public and private investment initiatives which have transformed the character of the immediate area in the intervening period since 2000. (Daly 2017)
- The site is located on a known flood risk area, marked as same in Table 4.1.17: Specific Development Objectives for Ringaskiddy, and on OPW floodinfo.ie , (Flood Summary ID- 1364, 13082, 12085). Mitigation measures to locate the facility at levels significantly above projected flooding levels would exacerbate the negative visual impact of the proposed large structure. It is my considered opinion that the site is inherently unsuitable for location of a use which processes, and generates hazardous compounds. (Oznur Yukel Finn, 2009)
- Notwithstanding the zoning of the greater Ringaskiddy area as industrial, the Indaver site area where the incinerator build is proposed (RY-I-09) is zoned as suitable for the extension of the Third Level Educational campus and enterprise related development including marine related education, enterprise, research and development. (RY-I-09, Table 4.1.17: Specific Development Objectives for Ringaskiddy, Cork County Development Plan 2022 - 28) This is dismissed in the August 2025 information but it is of critical importance that this zoning be upheld as it is directly linked to the investment in the NMCI and MaREI Campus areas and the potential for future growth of this sector. The proposed incinerator is therefore in direct contravention of the County Development Plan and contrary to the specified objectives for the immediate area.
- A waste facility/development will significantly impact tourism in the wider harbour area. There are many blue flag beaches in the harbour region which attract tourist from across the globe, thus generating financial reward for many local businesses in towns and villages in South Cork and surrounding harbour areas.
- The proposed Indaver facility will cause health, safety and well being concerns for future generations of people/ families who live and may considering living with a waste facility of this type in the locality. The disposal and transportation of waste to and from

the proposed development has health implication which have yet to be realised but must be considered.

- An assessment on the financial impact to property and rental prices should take place.
- The Cork harbour environment, nature and marine life that is enjoyed by so many people hangs in the balance and is already pushed to its limits. Widely documented evidence and reports support statistics that fishing stocks and wild life are already under immense pressure. If an industrial incident or accident was to occur at the proposed site, which is on the waterfront, would devastate the natural harbour and all its species.

Please refuse this planning application on the basis that the site is inherently unsuitable, concluded by all 3 Bord Pleanala Inspectors (Jones 2004, Yukel Finn 2009, Daly 2017) and the proposal contravenes the zoning of the Cork County Development Plan 2022 - 28 for this site. I wish to request an Oral Hearing to continue full public participation in this application.

Gavin & Niamh Williamson,  
Graball bay,  
Crosshaven,  
Cork.
