My boundary is approx. 17 metre from Moneypoint.

My concern, noise, dust, fuel tanks in case of fire or catastrophic tank failure, there is no end to what could happen. Water bowser hasn't dampened the ^{dust in} twenty years.

Do I have to suffer another 5 years fumes & emissions from fuel tank and then you have hydrogen fuel. My house is near to this site, if ESB doesn't notice my concerns, I'll be taking legal advice.
